

Jinhyeok Kim

Artificial Intelligence Graduate | Data Analysis | Supply Chain Support | Process Coordination

Sydney, NSW, Australia | 0468 544 027 | winsuwon127@gmail.com | Portfolio: jinhyeok-portfolio-amber.vercel.app | GitHub: github.com/Jinhyeok513

Professional Summary

AI and data graduate with transferable experience in data cleaning, validation, tracking, standardisation, Excel analysis and process-oriented reporting. Suitable for SCM support roles requiring accuracy, follow-up and structured information handling.

Core Skills

Microsoft Excel - Intermediate | PivotTables | XLOOKUP/VLOOKUP | INDEX-MATCH | SUMIFS/COUNTIFS | Data cleaning

Data validation | Duplicate review | Traceability | Process monitoring | Structured reporting | Scheduling

Python | Pandas | Korean-English communication

Education

Bachelor of Artificial Intelligence - Completed 2026

University of Technology Sydney (UTS), Sydney, Australia

- Graduated with Distinction; WAM 77.94 and GPA 5.88/7.00.
- Relevant study included data analytics, machine learning, computer vision, generative AI, software development and business information systems.

Diploma of Information Technology - 2023

UTS College, Sydney, Australia

- Built foundations in Python and Java programming, web systems, system analysis, technical documentation and business information systems.

Selected Project Experience

BioGeoDA - Australian Plant Data Integration and AI-Assisted Trait Extraction | 2025-2026

UTS AI/Analytics capstone team project and public portfolio reconstruction | Python | Pandas | NLP | TF-IDF | Logistic Regression | BERT QA | Streamlit | GitHub

- Standardised multi-source datasets by reviewing missing values, duplicate records, inconsistent species names and mixed trait formats.
- Maintained source, page, paragraph and context metadata so extracted records could be traced back to supporting evidence.
- Contributed to validation of 844 retained records from more than 2,400 generated candidates, reinforcing accuracy and review discipline.

Event Management System Project Plan - Team Lead | 2025

Academic Project Management Case Study | Project Management | Excel | WBS | AON | Gantt scheduling | Risk and budget planning

- Coordinated an Excel-based schedule and WBS with more than 100 tasks, dependencies, durations, milestones and resource estimates.
- Reviewed risk, vendor, stakeholder and budget-planning sections for consistency across a simulated 18-month delivery plan.

Tennis Ball Tracking and Trajectory Visualisation | 2025

Computer-vision portfolio project | Python | OpenCV | NumPy | Kalman filtering | FFmpeg | IoU/CLE evaluation

- Implemented a Kalman-filter tracking pipeline using HSV colour cues, whiteness cues, optical flow, blobness scoring, court masking and net-region suppression.
- Packaged a 207-frame tracking output with representative frame captures, trajectory visualisation and frame-level diagnostics.

Languages

- Korean - Native
- English - Professional communication skills
- Chinese - HSK Level 4

Work Rights and Availability

Current Australian work-rights details and full-time availability available on request.
